- Letter dated November 5, 2019 from Tina Bukala.
- Photos submitted by Kara Harrington.

14. ADMINISTRATIVE REPORTS:

14.A. Accommodation Agreement for Verizon Wireless Communications Small Cell Technology Equipment.

- Letter dated November 5, 2019 from Nancy McCoy-Blotzke.
- 89 Letters of Support dated May 2019 submitted by Verizon.
- Comment Forms dated October 2019 submitted by Suzanne Bauman.
- Letter dated November 5, 2019 from Susan Rushing-Hart.
- Letter dated November 5, 2019 from Neil Watter.
- Site Maps submitted by Jennette Raymond.

11/5/19 evening

Public Comment to Napa City Council

Rosemarie Vertullo

103 Summerbrooke Circle

Southeast Vintage Neighborhood Association Chairperson

P.O. Box 3034

Napa CA 94558

I am speaking for myself and as the chairperson representing the Southeast Vintage Neighborhood Association. I along with over 50 concerned residents of Napa, attended the community meeting on October 21 regarding the Valle Verde and Heritage House Continuum Housing Project PL 17-0114. We were very disappointed and perplexed as to why no one from the Mayor's office or any member of the city council attended this very important meeting. Have you made your decisions already?

I want to stress that we support our community in caring for the homeless and low-income people. I also want to stress that it is equally important and a responsibility for you, as our city leaders and government, to assure protection from harm to residents, families, children and businesses in this neighborhood. For this and many reasons, we do not support the location of this project.

Many people voiced their objection and concerns about this project and asked many questions that were not addressed. We need answers to the following:

1. What are the qualifications of the onsite full-time manager? Will this person have credentials of a behavioral health professional or any credentials at all?
2. Has the city received funding for the 24 Valle Verde affordable housing apartments? If not, what will the city do with this part of the project.
3. What are the exact mental health services available at Heritage House for residents who qualify for the No Place Like Home Program? How often will these services be available?
4. Why was the community not informed that the 33 SRO units could house more than one person per unit? The first we heard of this was at the October 21 meeting.
5. The Final EIR will be prepared including response to comments by November 21. Does the community have any opportunity to question or comment on this final document?
6. The tour of the Fremont Facility was held today. However, this facility does not have No Place Like Home residents. It is also in a commercial area not in a residential area. Why is this facility being used as a comparison when there are many blatant differences?

Additional questions are:

1. Why was the Sunrise location chosen? There are other locations in the city that would be more conducive to this housing project and that would be closer to services that the residents need.
2. Is the city council and planning commission aware that drug and alcohol rehabilitation services offered by Ole Health are referred to the county? These services are at Napa Valley Corporate Drive which is a 45-minute bus ride with 12 stops.
3. One of the stipulations of NPLH is that the residents can refuse treatment. These services will be critical to the success of residents and the travel time and location will create a barrier.

Many others and I have spoken at the city council meetings and at the community meetings. We have had these and many other questions that go unanswered. We, as taxpayers and residents of Napa, deserve answers. Thank you.

Good evening Mayor and City Council members:

I am appealing to you to change the "supportive housing" unit at Heritage House to a "workforce" living facility. Like you, we are frustrated, confused, and saddened by homelessness in our city.

Homelessness is NOT only the people who live in doorways and in parks, but those who teeter on the edge of eviction and those who cannot live in Napa for their employment due to high rents and home costs.

The police, EMT's, doctors and nurses, and social workers are on the front lines. We have heard stories right here that it took a police car 20 minutes to respond to help a young woman and her child while a homeless person tried to break into her home. This is not OK. "Doing the best we can" is NOT an answer, we need to do better!! Supportive housing will only add more stress on our community and currently understaffed police department. We cannot become complacent and tag these issues as our new normal.

I ask that we work together as a community to make this a WIN/WIN for both of us. So much time and effort has gone in to "public comment" week after week but are you really listening to our concerns?? Is this a done deal and simply allowing due process to run its course? This project as it stands is a WIN/LOSE. A win for a select few, a loss for the community who has supported and voted for each of you to protect and serve us. The bait and switch tactic used on this property reeks of deception, dishonesty and mistrust.

We are not asking you to scrap the whole project. There are many lenses through which this issue can be viewed. We implore you to drop the "supportive" housing unit for the safety of our neighborhood and the safety of all the young children living in Silverado Apartments.

The reality of "supportive housing" is, we don't know the reality! We don't know the true social impact on our neighborhood. We don't know the true physical impacts on the ecosystem and animal life. We don't know the impact of traffic with the Sierra and Villa connection and/or building of 67 homes at Vintage Farm. What we do know is we are frightened! Frightened for our safety and the safety of our neighborhood that we love. This is our perception; this is our reality!

Thank you.

Tina Bukala

11/5 public comment
evening session

City Council Meeting
11/5/19
Supplemental II-13, Public Comment
From: Kara Harrington

CITY OF NAPA
CITY CLERK

For Nov. 5 public comment on 5G

2019 NOV -5 PM 7: 20

You've heard for months from concerned members of the community – the community you serve – that we have deep reservations about the deployment of small cell wireless units in downtown Napa. Serious scientists have raised concerns about adverse health risks. These cells pose potential privacy and cyber-security risks as well. And some communities have already experienced property value depreciation due to the placement of these units.

The Environmental Health Trust, a valuable source of information on 4G and 5G technology, has compiled a list of ordinances developed by local governments across the country. These ordinances address issues ranging from the importance of preserving the visual character of communities, protecting environmental resources, and protecting residents against adverse health effects. Some local ordinances are prohibiting these units altogether. I urge you to visit their site (<https://ehtrust.org/usa-city-ordinances-to-limit-and-control-wireless-facilities-small-cells-in-rights-of-ways/>)

Over 250 scientists and doctors around the world have signed a declaration calling for a moratorium on the increase of 5G cell antennas citing human health effects and impacts to wildlife. Here are some valuable resources.

- 2017 Scientific Appeal on 5G To the European Commission (<http://www.5gappeal.eu/>)
- 2015 EMF Scientist Appeal to the United Nations (<https://emfscientist.org/>)
- <https://ehtrust.org/scientific-research-on-5g-and-health/>

In Geneva, Switzerland where 5G has already been rolled out, residents have taken to the streets to protest the adverse health effects. As soon as the antennas were installed, several residents and entire families in the heart of Geneva reported similar unusual symptoms of loud ringing in the ear, intense headaches, unbearable earaches, insomnia, chest pain, fatigue and not feeling well in the house.

Some residents learned that the 5G cell towers were activated on the same day they began to feel the symptoms.

Dr. Bertrand Buchs has called for a 5G moratorium. He notes, "In this case, our authorities are going against common sense ... we risk experiencing a catastrophe in a few years... no serious study exists yet, which is not surprising when we know that this technology was developed in China, then to the United States. In Switzerland, ...the debate must be launched because the story is not about to end."

Communities are discovering that wired fiber optic connections are a better alternative - safer, faster, reliable, and more cyber-secure. I urge the Council not to embarking down this potentially dangerous 5G path. Instead look into the concerns raised and seek safer, more secure options.

Sincerely,
Nancy McCoy-Blotzke

ZIP code: 94558

Subject: I Support Verizon Wireless's network enhancements in Napa.

Message Body: I support improved coverage for everyday use and emergencies. I have personally experienced dropped calls, data delays or poor cell phone reception in Napa. I oversee utilities for two communities in rural Napa County. Cell signal strength is spotty due to the rugged terrain. I am presently investigating cost effective solutions to fill in the gap coverage areas. Ideally I want to advance our SCADA communications into the wireless space without licensed 150 MHz radios. Please have a staff member contact me if you wish to learn more.

Keep me informed of issues that impact the Verizon Wireless network in Napa., I would consider attending a public hearing. Please send me more information.

Message Body: Or create your own message:

Remember the lack of communication and internet service during the 2017 wild fires. I understand the City of Napa local first responders are customers of Verizon Wireless. It is essential that our first responders maintain reliable communications for our public safety. It is also essential that residents maintain access to information during times of crisis. Please support Verizon Wireless's proposal for Napa.

Message Body: I support improved coverage for everyday use and emergencies. I have personally experienced dropped calls, data delays or poor cell phone reception in Napa. I strongly support Verizon Wireless's plan for network enhancements. Public safety issues, we found out in October of 2017, require a functioning cellular network. Every day we are in the city of Napa we experience very frustrating "dead zones". My schedule may not allow me to attend a public meeting, but please consider this email as a show of my strong support for the Verizon plan. Thank you very much. Sincerely, Steven K White

From: Daniel Breitbach

City: Napa

ZIP code: 94558

Subject: I Support Verizon enhancements in Napa if they pay for the infrastructure to maintain the cities property they will be using as station for their mini cell towers. This would need to include any improvements to the particular pieces of city owned equipment. For example, upgrading street lights to LED's. I think they should also pay the energy bills for those units since they will be making a direct profit off of their use of city property.

Message Body: Or create your own message:

I Support Verizon enhancements in Napa. As long as they pay for the infrastructure to maintain the city's property they will be using as station for their mini cell towers. This would need to include any improvements to the particular pieces of city owned equipment. For example, upgrading street lights to LED's. I think they should also pay the energy bills for those units since they will be making a direct profit off of their use of city property. This is the only way I would stand behind this proposal. I would also add to an approval that they could not pass this costs on to their customer. Especially since it would give them an advantage over their competitors.

Keep me informed of issues that impact the Verizon Wireless network in Napa. I would consider attending a public hearing. Please send me more information.

I support improved coverage for everyday use and emergencies. I have personally experienced dropped calls, data delays, or poor and/or zero cell phone reception in Napa. I had been with AT&T since 2000/2001 before they were even switched to AT&T from Cingular. In December 2018, because the service with AT&T was so bad (And expensive!), I switched from AT&T to Verizon. So far, my service with Verizon has been/is worse than it ever was with AT&T. And, I'm paying nearly \$50 more per month than I did with AT&T for lousy service with Verizon! - Tiffani Emerson Morris

Please provide your comments, concerns or complaints with respect to the small cell tower installation in this specific location:

I would prefer to not have a cell tower that emits radiation 24 hrs a day right next to where my daughter and I sleep and where we are constantly exposed as well as the other residents and students that attend Napa High School

Please explain the preferred outcome that you would like to see based on the feedback you provided.

A tower to be placed outside city limits / not so close to our schools during the hours of work

Mayor Techel and City Council members,

I understand that there is controversy regarding health and the use of Verizon's 5th generation cell towers or the exposure to increased power and range of electric and magnetic fields (EMFs). Before the city approves the 28 towers on tonight's agenda (and the additional 27 that are applied for), I would suggest that the city make transparencies of schools, neighborhood parks. I would suggest that these towers are located as far away from where children spend time as possible (including apartment complexes where they sleep, schools, and parks. We know there is an increase of children with asthma, autism and a variety of learning disabilities).

I am not a "Techno Nerd" but I believe there are big changes since 1G was first introduced in 1979, as analog. 2G was introduced in 1991 as the first digitalized service (phone conversations were encrypted and mobile devices could use short message service or SMS); 3G was introduced in 2001 and made use of cell towers (internet connectivity possible was on cell phones); 4G was introduced in 2009; isn't it less than 18 months since 5G networks have been tested?

When there are claims that there are no long-term exposure effects known, how can we accept that 40 years or 25 years, let alone 18 months of ^{study} exposure can be considered "long term"? Where are these long term human studies? It is claimed that our skin protects us from EMFs; in that case would only those with skin cancer or other skin conditions be at risk? Isn't the 5th generation 2,500 times stronger than the 3rd Generation?

Science does tell us that immediate effects include brain wave and heart rhythm variances. It is believed that our reproductive systems are damaged (male infertility has decreased over the past couple of decades, "...a significant decline of 50-60% in sperm count amongst men from North America..." that "...the DNA within the sperm is abnormal..." and that 34% of the causes are "unknown"). *Electrical imbalance effects on nervous systems,*

Rather than human studies, animals have been used (rats reproduce faster & don't live as long), so in addition to the head, heart, and gonads we find that the nervous system is

damaged and that even DNA is irreversibly altered. (We know there are more children with asthma, autism and a variety of learning disabilities).

Most of our population does not own 5G compatible smart phones so why must we expose ourselves to the higher frequency bands?

One study tells us that "At the end of 2017, there were approximately **320,000** 4G cell antennas in the U.S. A study by consultant firm Accenture estimates that 5G will require **769,000** small-cell antennas, an increase of **449,000** new antennas."

If there are to be towers, keep them out of the neighborhoods. And because it is known some people suffer from EMF sensitivity I would suggest that each location that a Verizon Cell Tower is erected, a large, easily seen, warning sign be set up so those of the general public can avoid doing business or being in that area.

IF OUR UTILITIES WERE ALL UNDER GROUND COULD VERIZON
CLAIM UTILITY POLE RIGHT OF WAY?

Dr. Neil Watter, retired internal medicine physician
427 Even St. Napa

Thank you for this opportunity to speak. I am not going to repeat everything that I said before at the previous council meeting. However, I will say this:

In medicine, things are usually proven by performing a double-blind and peer-reviewed study. A group of people are given a medicine while the other group is given a placebo. The deployment of small cell towers in Napa is a mass experiment conducted on people who have not given their consent and with *no one* receiving a placebo.

Verizon has the reputation of being the best mobile provider by the likes of Consumer Reports and others. Now, they are trying to tell us that their coverage is garbage! On Sunday, November 3rd, I, along with someone else, personally video recorded a phone call being made at 18 of the proposed Napa Verizon sites. At all 18 sites, we had either 3 or 4 bars using a Verizon iPhone. All of the calls were totally clear to the receiver and the caller. So, at least at these sites, there was no gap in service. The same result was achieved at the other 36 sites by other testers.

If there is a silver lining to any of this it would be that, if these towers are allowed to be deployed, there will be a significant loss in property values and Napa will be more affordable.
