Community Service Experience:

Collabria Care (f/k/a Napa Valley Hospice & Adult Day Services (2013 to present), current Board Chair
City of Napa General Plan Advisory Committee 2040 Community Development Block Grant Committee
(2012-2014) Cultural Heritage Commission (February 2015 to present) Breast Cancer Registry (2005-
2011)

Education:

New England School of Law, JD, (1982) Rutgers University, BA History (1979)

Other relevant experience or expertise:

I practiced law for over 25 years. I majored in history in college and was also involved in the preservation of Paul Revere's original coppersmith barn located on the premises of my employer/manufacturer. I also started two small businesses, including an interior design firm.

Additional Questions

What is your understanding of the role and responsibility of this board?

My understanding of the role and responsibility of this board is to make recommendations to the City Council on the designation of landmarks and historic districts, to review and make recommendations on Certificates of Appropriateness related to renovation of historic resources, and to review and make comments on issues related to the historic resources of the committee.

As a Commissioner, I have
attended all but three meetings, I
believe, since 2015.

Have you ever attended a meeting of this board? If so,
how many?

What duties of this board are most interesting to you?

The duties of this board that are most interesting to me is ensuring that the applicants for Certificates of Appropriateness have full and fair opportunities to present the issues and listening to the concerns of the community members who always present new and interesting ways of seeing the issues presented. I am passionate about preserving our historic resources and promoting our local history. I feel I am always looking for ways to allow owners of historic resources to preserve and maintain their homes in a practical manner.

What activities of this board are least interesting to you?

The activities of this board that are least interesting to me are reviewing the annual reports/plans presented to the State.

What programs or projects would you like to see improved or implemented?

Now that the historic signage program has been "green lighted", I would like to see a larger scale promotion of our local history. I would also like to see status survey updates supplemented with owners' concerns and the impacts of their historic preservation designation, providing context for planning. More community outreach would be welcome, partnering with Napa Landmarks and others.

How would you approach improving these project(s) or program(s)?

I would convene a forum of historic property owners to solicit their concerns and input. I would also like to see a full publicity campaign and educational forum to promote and explain the historic signage program.

Are you involved in any organizations or activities that may result in a conflict of interest if you are appointed to this board?

I am not involved in any organizations or activities that may result in a conflict of interest if I were re-appointed to this board.

PRESERVATION PROFESSIONAL EXPERIENCE

Current owner of a historic property located at 554 and 558 Randolph Street in the Napa Abajo District of Napa. I have been personally active daily in the preservation, restoration, and historical research of the two homes on the property for over four years. This has been a hands on project from the very beginning. Having been involved personally on this project for all these years as provided experience at a professional level. I have been working on homes for over 45 years and gaining knowledge at each project. I have been always eager to share the knowledge I have acquired as others approach me for advice.

- Studying the Secretary of Interiors Standards to insure work or changes are compliant is a priority.
- Used my art background and research knowledge to design architectural features such as the front portico on the Gothic Revival house, create floor plans, select materials best suited for historical structures, choose historical paint colors, use sensitivity in incorporating current building standards with historical buildings.
- Sourcing appropriate replacement vintage items at bay area businesses such as surplus warehouses, eBay and Craigslist provided insight on recognizing and understanding possibilities.
- Figuring ways to repurpose materials such as creating paneling and flooring from planks found behind the lathe and plaster provided looking at creative ways to salvage and reuse materials.
- Using extensive and persistent research to discover the roots of the main house led to discovering information not previously documented on the age of the home and the first owner and builder of the 1856 Gothic Revival home. It is very possibly one of Napa's oldest largest surviving home from the 1850's.
- Other research discoveries were made that led to learning of the original previously removed architectural details on the house and how to recreate them in kind.
- Personally taking on the arduous task of chemically stripping the 160 year old windows while making repairs, re-glazing, replacing newer glass with old "wavy" glass and preserving more than a dozen original windows over a 4-6 month period enabled me to use skills from the leaded glass windows I created many years ago.
- Used my extensive research to personally apply and receive the Mills Act on the Randolph properties. Assisted other applicants in their applications.
- Regularly attend or follow the meetings of the Cultural Heritage Commission.
