TITLE:
Gann Appropriation Limits for Fiscal Year 2020/21

RECOMMENDED ACTION:

Adopt a resolution establishing the Gann appropriations limit for Fiscal Year 2020/21.

DISCUSSION:

The City Council approves all City appropriations (authorizations to incur financial obligations) as a part of the process of approving and updating the budget. California Constitution Article XIII B requires cities to establish an annual limit of maximum allowable appropriations (the "Gann Limit") based on a formula that begins with the appropriation limit of the previous year, and considers adjustments to either City or County population, and increases in either new non-residential construction or California per capita income. The details of the formula are summarized in this report, and calculated as a part of the attached resolution.

Both the California per capita personal income price factor and the population percentage change factors are provided by the State Department of Finance to local jurisdictions each year. Reports that present changes in new, non-residential assessments are provided by the County of Napa. These numbers provide the basis for the factors to be used in the City's calculation of the Gann Limit.

The table in Attachment 2 presents the ratios used and illustrate that the City's 2020/21 Adjusted Appropriations subject to the Limit of \$71,448,415 are well under the appropriations limit of

\$530,481,309.

FINANCIAL IMPACTS:

Approval of the appropriation limits will have no financial impact on the Fiscal Year 2020/21 operations of the City.

CEQA:

The Finance Director has determined that the recommended action described in this report is not subject to CEQA, pursuant to CEQA guidelines section 15060(c).
