## ORDINANCE 02025-

ORDINANCE OF THE CITY COUNCIL OF THE CITY OF NAPA, STATE OF CALIFORNIA, AMENDING NAPA MUNICIPAL CODE CHAPTER 13.08 WATER CONTAMINATION PREVENTION REGULATIONS; AND DETERMINE THAT THE ACTIONS AUTHORIZED BY THIS ORDINANCE ARE EXEMPT FROM CEQA.

WHEREAS, Napa Municipal Code ("NMC") Chapter 13.08 authorizes the City to prevent water contamination of the public water system and has been revised to comply with regulatory requirements for the program; and

WHEREAS, NMC Sections 13.08.010 through 13.08.140 have been updated to reference the Utilities Department Director, the City's Cross-Connection Control Program (CCCP), and added language consistent with updated requirements in the adopted State Water Resources Control Board Cross-Connection Control Policy Handbook (CCCPH) Standards and Principles for California's Public Water Systems amended on June 17, 2025; and

WHEREAS, the actions authorized by this ordinance are exempt from the requirements of the California Environmental Quality Act ("CEQA") pursuant to: (a) Public Resources Code Section 21065, CEQA Guidelines Sections 15060(c) and/or 15378, since the revision of the City's water contamination prevention is not subject to environmental review under CEQA, as it does not constitute a "project," does not commit the City to a definite course of action, does not constitute discretionary approval of a specific project, and will not result in a direct or reasonably foreseeable indirect physical change in the environment; the revised ordinance merely codifies and updates the terms and conditions governing water contamination prevention of the public water system.

WHEREAS, even if the revision of the City's water contamination prevention regulation ordinance was considered a project, it would be exempt from CEQA as it falls within the "common sense" exemption set forth in CEQA Guidelines Section 15061(b)(3), which excludes projects where "it can be seen with certainty that there is no possibility that the activity in question may have a significant effect on the environment." The revision of the Napa Municipal Code will not result in any physical development, nor will there be an expansion of use or existing structures as a result of its adoption. The proposed ordinance makes any delivery of water discretionary, so the City is not committing to the delivery of any water by updating this code. Any new service requests would be required to undergo appropriate CEQA review at the time of application when the scope of the project can be seen with certainty. This ordinance merely establishes the terms and conditions of the water contamination prevention requirements. As a regulation, this ordinance does not have the possibility of having a significant effect on the environment.
