Additional Questions

What is your understanding of the role and responsibility of this board?

Advise city staff as well as city council on matters related to seniors. Attend semi-monthly meetings, learn, and share out learnings in the community.

Have you ever attended a meeting of this board? If so, how many?

Yes, 1

What duties of this board are most interesting to you?

The opportunity to get a closer look at the cross-section of senior-focused services in our community, learn about and support cross-functional community initiatives, and the opportunity to visit the senior center as a representative of the board.

What activities of this board are least interesting to you?

N/A - maybe I'll have an opinion on this later, but at the moment, I do not :)

What programs or projects would you like to see improved or implemented?

I don't come to this with something I'm trying to accomplish; rather, I want to learn, support, and help offer senior perspective on initiatives presented.

How would you approach improving these project(s) or program(s)?

If I *did* have a project in mind that I was hoping to implement, I would gather and assess data, talk to key stakeholders, learn about objections, and try to design a program/proposal that handles objections without drastically reducing the desired impact or increasing cost/resourcing. I find conversations with stakeholders (both users and managers) to be important in aligning forces to get something done.

Are you involved in any organizations or activities that may result in a conflict of interest if you are appointed to this board?

Not to my knowledge. I own a senior care agency and I think that's a desired qualification here.
